NUITEQ CHORUS

MAKE EDUCATION FUN

ACTIVATE · SIMPLIFY · TRANSFORM

NUITEQ Chorus is an online digital teaching and learning solution offering teachers the necessary support to enhance their instructional methods while empowering students with a flexible platform for studying anywhere, anytime.
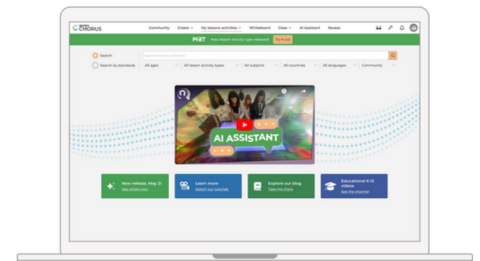

Designed to empower **Smarter Human Interaction**, Chorus **helps students** gain the skills needed for future jobs and **empowers teachers** with curriculum-aligned teaching resources.

ACTIVATE

Activate students for greater engagement and collaboration.

Fun content: Use relevant content to quickly create curriculum-aligned learning activities and provide multiple means of representation and expression (e.g., images, video, audio) that support students in their learning quest. Send homework that is worth doing and will keep students engaged.

Engaged learning: Teachers send out engaging game-like lesson activities that students can access online on their devices, whether they're computers, laptops, Chromebooks, or tablets.
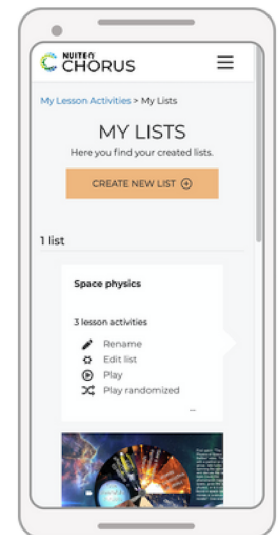

SIMPLIFY

Simplify teaching with engaging and relevant content that is accessible at all times.

Easy-to-use interface: search and find ready-made activities or create and distribute your own within minutes.

Save lesson planning time: access a vast content library containing curriculum-aligned lesson activities created by teachers for teachers.

AI-powered technology*: use the AI Assistant to enhance your expertise and quickly create lesson activities.

Personalized learning: use ready-made relevant content to personalize the learning path of each student.

MAKING EDUCATION FUN

* Available for teachers on a NUITEQ Chorus Professional or Premier plan

Differentiate instruction: display information in a flexible format based on students' learning styles and needs.

Create a classroom remotely: teachers can quickly create new classrooms for distance learning using a CVS file or imported data from Google Classroom.

Evaluate and track progress: teachers can send assessments to remote students and automatically share their results, making tracking student progress and providing feedback easier.

Free training: learn how to use Chorus efficiently with training videos available for free 24/7 at nuiteq.com/training/chorus-nuiteq-com.
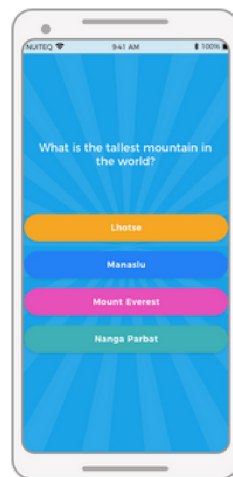

TRANSFORM

Move from teacher-oriented to student-centered learning. Increase collaboration and engagement to improve student results.

Engage students with relevant content: access free lesson activities created using the means of learning that students use in their daily lives, such as videos and digital resources.

Multiple ways to create engagement: use lesson activities that can be adapted and placed in a context that feels relevant to students. Chorus lesson activities promote creativity in solving real, concrete problems.

Student voice: the ability for students to produce activities in various formats or answer a Poll sent by the teacher anonymously, anytime, from anywhere.

TRY CHORUS TODAY

With its intuitive design based on our Smarter Human Interaction philosophy, Chorus helps you activate, simplify, and transform education.
